

## Project Development Phase

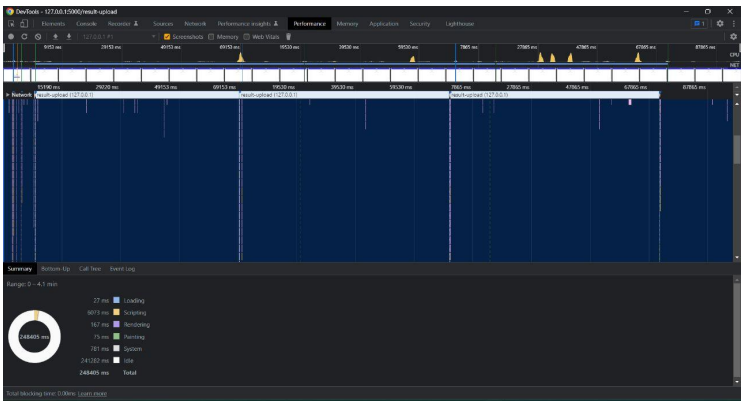

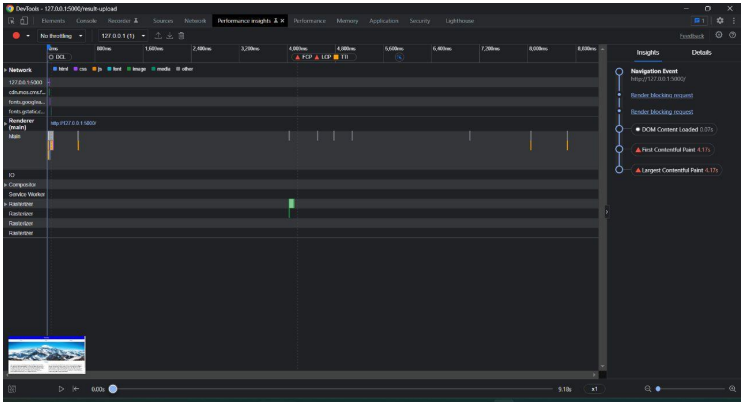

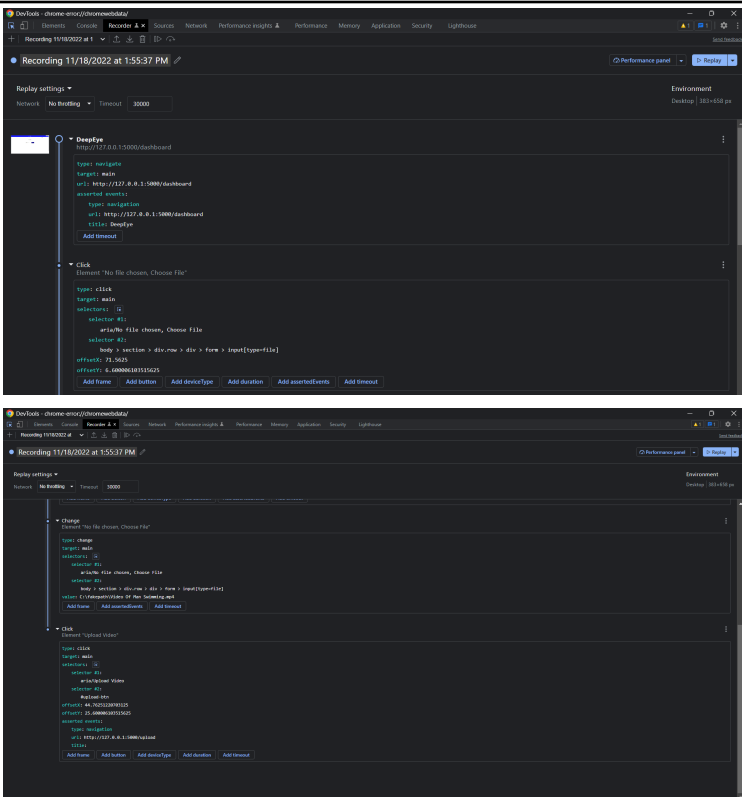

### Model Performance Test

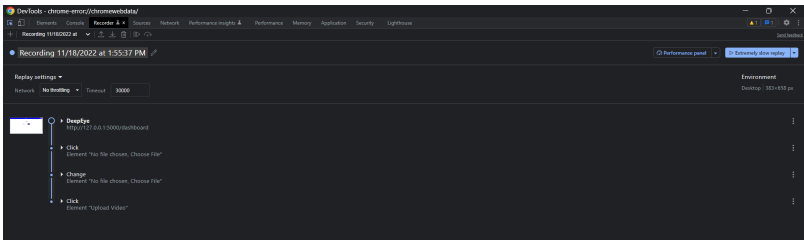

Date	03 November 2022
Team ID	PNT2022TMID32676
Project Name	Virtual-Eye Drowning Detection System
Maximum Marks	4 Marks

### Model Performance Testing:

Project team shall fill in the following information in the model performance testing template.

S.No.	Parameter	Screenshot / Values
1.	Dashboard design	<p>No of Visualizations / Graphs - 2</p>  <p>The image shows two screenshots. The top screenshot is a web browser displaying the 'VirtualEye' dashboard. It has a dark blue header with the 'VirtualEye' logo and navigation links for 'Home', 'Dashboard', 'Feedback', and 'Logout'. The main content area features a large blue background with a yellow and white beach ball. Overlaid on this is a red rectangular box containing two buttons: 'Click here to Select Video' and 'Upload'. The bottom screenshot is a performance monitoring tool, likely Chrome DevTools, showing the 'Performance' tab. It displays a timeline of events for a page load, with a red box highlighting a 'Render' event. The right sidebar shows 'Insights' and 'Details' for the selected event.</p>

2.	Data Responsiveness	
3.	Amount Data to Rendered (DB2 Metrics)	
4.	Utilization of Data Filters	

5.	Effective User Story	<div>No of Scene Added - 1</div> 
6.	Descriptive Reports	<div>No of Visualizations / Graphs - 1</div>
